

TAFE Queensland Sport & Recreation programs

- provide the latest training in areas such as health appraisals, fitness assessments and testing, service prescription, conducting exercise classes, stress management and weight control
- for the outdoor recreation sector include adventure tourism, personal development, experiential learning and corporate adventure training.

TAFE Queensland Science & Technology programs

- provide a diverse range of opportunities for graduates, from working in medical and chemical laboratories to working in food or animal science
- provide up-to-date learning that keeps pace with this fast changing industry.

Be offered work while you're still studying...

"The programs are practical, students work with real clients, on real work projects both at YITSPORTZ and out in the community and industry.

A major benefit of the TAFE programs is the connections that students make in the industry while they're studying and the fact that the teachers have strong existing industry relationships. 20% of our students are being offered jobs in the industry while completing work experience aspects of the program.

Three current students in the Advanced Diploma in Sport and Recreation have recently been employed to work on a major new international sporting event that will be launched in Australia in 2005."

– Sue Mallory
Sport and Recreation Teacher, TAFE Queensland

Start your own business in personal training...

Jodie Spencer Certificate IV in Personal Training
Cooloola Sunshine Institute of TAFE

- Young Business Woman of the Year nominee, 2004 Sunshine Coast Business Woman of the Year Awards

While Jodie enjoyed working at her local convenience store, she knew there was something else she wanted to do. Motivated by a passion for sport, she enrolled in a Certificate IV in Personal Training at TAFE. Jodie's training taught her everything she needed to know from nutrition to rehabilitation of sports injuries, to understanding motivation psychology and leadership.

Now? Jodie has started her own personal training business, *V Health*.

“If you find something that you love doing, your work will be both enjoyable and rewarding. My business enables me to work both indoors (gym) and outdoors (parks, beaches) and I can have flexible hours.”

– Jodie Spencer

Ticket to an exciting career...

Alex Gunton Certificate IV in Outdoor Recreation
Tropical North Institute of TAFE

After graduating with a Certificate II in Outdoor recreation, Alex is continuing with his studies at TAFE. During his holidays, Alex worked as a guide for an eco-tourism company in the Blue Mountains near Sydney. His goal is to find a job in eco-tourism which will allow him to travel.

“I want a career that challenges me. Outdoor recreation is my stepping stone to a career. It's my ticket to a career in adventure tourism.”

– Alex Gunton

“I was supposed to spend four weeks training in London, but because of my qualifications and experience, they put me on a ship as Fitness Director within two days. I have been to South America, the Amazon River, the Caribbean and the Mediterranean. Now I am heading to Europe, Russia and other countries. I have learnt more about the world than I could ever have hoped to.”

– Wendy Brooks

TAFE one minute, the Caribbean, South America, Russia the next...

Wendy Brooks Certificate IV in Sport (Athlete Support)
Diploma of Sport and Recreation, Cooloola Sunshine Institute of TAFE

Wendy applied to work on cruise ships and was interviewed by a cruise ship company at TAFE.

Now? Wendy is travelling the world as a fitness director.

Job ready science graduates...

Joanne McDiarmid
Diploma of Applied Science (Biotechnology)
Southbank Institute of TAFE

Joanne gained invaluable industry experience and made several industry contacts during her biotechnology studies at TAFE.

She is now working for Queensland Health and has enrolled in a Master of Science (biotechnology) at university.

Now? Joanne is completing her Masters degree with a view to work in the water quality field.

“My time at TAFE has given me good theoretical and practical skills that the industry (labs) want and that can be used immediately. Tours of industry labs gave me real world experience and access to jobs.”

– Joanne McDiarmid
